## Regulation of the Richmond Board of Health Local Smoke-free Regulations

**Effective Date: April 1, 2018**

*These regulations replace any and all prior Environmental Tobacco Smoke Regulations.*

+++++

### A. Statement of Purpose

Whereas conclusive evidence exists that tobacco smoke causes cancer, respiratory and cardiac diseases, negative birth outcomes, irritations to the eyes, nose, and throat; and severe discomfort and illness to nonsmokers:

Whereas environmental tobacco smoke [hereinafter ETS], which includes both exhaled smoke and the side stream smoke from burning tobacco products, has been determined to cause the death of 53,000 Americans each year (McGinnis JM, Foegen W, "Actual Causes of Death in the United States", JAMA 1993 270:2207-2212);

Whereas the United States Environmental Protection Agency has classified secondhand smoke as a known human carcinogen (U.S EPA, 2003) and the International Agency for Research on Cancer (IARC) of the World Health Organization has also classified secondhand smoke as a known human carcinogen (IARC-WHO, 2002);

Now, therefore, the Richmond Board of Health recognizes the rights of those who wish to breathe smoke-free air and adopts this regulation to protect and improve the public health and welfare by prohibiting smoking in public places and other specified areas within the Town of Richmond.
